

Keith A McDougall

Keith McDougall, former NSA Chairman Environment & Conservation Committee and current Policy Director of Songbird Survival has always been a great supporter of the Trust. Not only is he a member of the Trust he also sat on the Heather Trust Steering Committee for over 10 years and every year Keith generously donates a commissioned oil painting to our Sporting Sale.

His involvement with the The Heather Trust; Norfolk Naturalists' Trust; The National Sheep Association (of which he is a vice-president) The Broads Society, (of which he is also a vice-president); and the Songbirds Survival Trust all bear witness to his deep commitment to the environment and his passion to record what he regards as Europe's finest landscapes.

‘A Special Kind of Light’

This is a picture book for dipping into, for the guest's bed side table or the coffee table. Short text and more personal chapters link the artists' migrations in paint and prose and the reader will relish the atmospheric paintings of the Highlands, Hebrides and Norfolk farmland and marshes.

It is truly a record of a lifetime's love affair with some of our most cherished landscapes. A treasure trove of the countryman's gentle approach to the natural world in paint and prose. Through-out the book Keith's deep interest in wildlife and conservation prevails.

A Special Kind of Light is published in a LIMITED EDITION of just 450 cloth-bound copies with full colour dust jacket illustrated throughout with more than 50 evocative oil paintings and watercolours, plus line illustrations. A further 30 LIMITED EDITION leather-bound copies are available, gold embossed and supplied in a slip-case.

** Publication date late Autumn 2009*
